Select and Place:

Answer:
Explanation:

NEW QUESTION: 3
A system administrator needs to specify a set of FQDN to IP address mappings for a legacy server; the administrator does not want the legacy server to be referenced by other servers. Which of the following should the administrator use to set this?
A. Host file
B. Route statements
C. DNS server
D. DHCP server
Answer: A

NEW QUESTION: 4
Which of the following embodies all the detailed actions that personnel are required to follow?
A. Guidelines
B. Procedures
C. Standards
D. Baselines
Answer: B
Explanation:
Explanation/Reference:
Procedures are step-by-step instructions in support of of the policies, standards, guidelines and baselines.
The procedure indicates how the policy will be implemented and who does what to accomplish the tasks." Standards is incorrect. Standards are a "Mandatory statement of minimum requirements that support some part of a policy, the standards in this case is your own company standards and not standards such as the ISO standards"
Guidelines is incorrect. "Guidelines are discretionary or optional controls used to enable individuals to make judgments with respect to security actions."
Baselines is incorrect. Baselines "are a minimum acceptable level of security. This minimum is implemented using specific rules necessary to implement the security controls in support of the policy and standards." For example, requiring a password of at leat 8 character would be an example. Requiring all users to have a minimun of an antivirus, a personal firewall, and an anti spyware tool could be another example.
