#### **NEW QUESTION: 1**

You are planning to use DMO of SUM to perform an "inplace-migration" to SAP HANA. What do you need to consider? Note: there are 2 correct answers to this question.

- A. Unicode conversion is part of DMO only in case of target version AS ABAP 7.40 or 7.31.
- B. The target database size increases temporarily because of the Shadow Repository.
- C. SAP HANA Landscape Reorganization required a manual step to edit a file.
- D. The source system is non-Unicode and the target database is a scale-out system.
- E. Network capacity between exporting and importing R3load processes must be.

**Answer: A,C**

#### **NEW QUESTION: 2**

You work as a system engineer for BlueWell Inc. You want to verify that the build meets its data requirements, and correctly generates each expected display and report. Which of the following tests will help you to perform the above task?

- A. Performance test
- B. Functional test
- C. Reliability test
- D. Regression test

**Answer: B**

Explanation:

The various types of internal tests performed on builds are as follows: Regression tests: It is also known as the verification testing. These tests are developed to confirm that capabilities in earlier builds continue to work correctly in the subsequent builds. Functional test: These tests emphasizes on verifying that the build meets its functional and data requirements and correctly generates each expected display and report. Performance tests: These tests are used to identify the performance thresholds of each build. Reliability tests: These tests are used to identify the reliability thresholds of each build.
