a. Make sure you are working with the primary portfolio (at top or left) and not the comparison set for the next steps.

b. In the Scenario list, select a scenario for your analysis.

c. In the View list, select a portfolio view scorecard.

d. In the scorecard, select a row where you want to add a new project.

e. Click Add Project.

4) For the first project you create, if defaults are not already set, the Add Project dialog box appears:

a. Select a default Parent EPS element.

b. Select a default Responsible Manager.

c. Click Select.

value on the General detail window of the EPS page. For example, you may later want to change a project

so you can easily view data from more than one project at a time.
