**NEW QUESTION: 4**

Communication is one of the largest activities that the portfolio manager does along the portfolio lifecycle. As an experienced portfolio manager, you know that communication and information needs vary between portfolios, programs and projects. How do you define the difference in those three levels of Project Management?

- A. Criticality of the communication with relation to the organization is highest at a project level as the business value is acquired at this level
- B. Communications at a Program level are more diversified than at project and portfolio levels  
Communications at a Portfolio level are more diversified than at project and program levels
- C. Communications at a Project level are more diversified than at portfolio and program levels

**Answer: C**

Explanation:

Explanation

Portfolio communication recognizes the broad and varied stakeholders from executive management through individuals performing the basic tasks to third parties. The information needs of portfolio stakeholders are much more varied than with project-level communication primarily because of the breadth and variety of stakeholders
