NEW QUESTION: 3

Melissa recently facilitated company-wide diversity training through a series of webinars. Prior to designing the training, she surveyed a sampling of employees to identify their experiences in the organization related to harassment, promotion opportunities, and equitable treatment.

This is an example of which of the following?

- A. Attitude assessment

- B. Knowledge banking
- C. Formative evaluation
- D. Summative evaluation

Answer: C

Explanation:

Answer option B is correct. Formative evaluation is a technique used prior to the commencement and during the design phase of training. It is used to gather data that will be used in training to ensure that the objectives are met and that the training meets the needs of the workgroup. This is different from summative evaluation (C), which occurs after the training has taken place. Knowledge banking (D) and an attitude assessment (A) are not used in the evaluation of training.
