public abstract String getType();`
- D. `public abstract String type;
public abstract String getType();`

Answer: B

NEW QUESTION: 2

Matt, an administrator, is concerned about the wireless network being discovered by war driving.

Which of the following can be done to mitigate this?

- A. Move all access points into public access areas.
- B. Enforce a policy for all users to authentic through a biometric device.
- C. Disable all SSID broadcasting.
- D. Ensure all access points are running the latest firmware.

Answer: C

Explanation:

Explanation/Reference:

Explanation:

B: War driving is the act of using a detection tool to look for wireless networking signals. The setting making a wireless network closed (or at least hidden) is the disabling of service set identifier (SSID) broadcasting. Thus, by disabling all SSID broadcasting you can mitigate the risk of war driving.

NEW QUESTION: 3

CCC is a local authority based in Country M.

A local authority (LA) is a public sector Organization which has administrative responsibilities within a geographical area and is responsible for the provision of a range of public services within its area including schools, leisure, policing and housing.

The majority of CCC's income comes from central Government funding. In the last four years, the global economic downturn has resulted in the central Government of Country M having to drastically cut its funding to all LAs. Six months ago, CCC appointed a new Chief Executive who, since his arrival, has attempted to make a number of changes to the Organizational culture and structure of CCC. He has stated that these changes are essential if CCC is to continue to operate effectively within the current economic environment.

The Government of Country M has recently announced that all LA's must reduce their overall expenditure from current levels by 15% within the next year.

Which of the following types of change is CCC experiencing?

- A. Evolution
- B. Revolution
- C. Reconstruction
- D. Adaptation

Answer: B
