NEW QUESTION: 2

Which of the following are true about the Default Division field on the User object?

A. Division that is applied, by default, to all new accounts and leads created by the user, unless he or she explicitly sets a different division. When users create records related to an account or other record that already has a division, the new record is assigned to the existing record's division; the default division is not used. This setting restricts the user from viewing or creating records in other divisions. Users cannot change their division. Available only in organizations that use divisions to segment their data.
