NEW QUESTION: 1

You must configure Oracle Data Redaction for the EMP table to satisfy the following requirements:

RANDOM redaction on the SAL and COMM columns

PARTIAL redaction on the HIREDATE column

FULL redaction on the MGR column

What would you define to implement this?

- A.** one redaction policy on the table, which specifies the redaction types for all table columns that must be redacted
- B.** several redaction policies, with each redaction policy specifying the redaction for table columns of that redaction type
- C.** several redaction policies, with one redaction policy for each data type defined for the table must be redacted
- D.** several redaction policies, with one redaction policy for each table column that must be redacted

Answer: A

Explanation:

Explanation/Reference:

Explanation:

You can redact columns of different data types, using different redaction types, for one table or view.

1. Create the policy for the first column that you want to redact.

2. Use the DBMS_REDACT.ALTER_POLICY procedure to add the next column to the policy.
